Re: Statement of endorsement of the All Aboard campaign

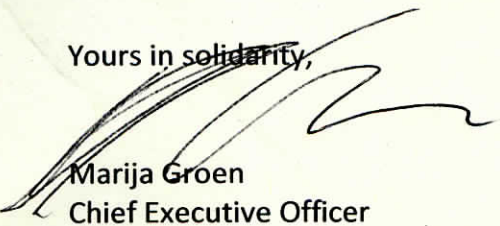

Housing Resource and Support Service Inc. (HR&SS) is proud to endorse the All Aboard campaign promoting 'accessible journeys everywhere'.

As a human rights-based organisation committed to supporting people with disabilities to achieve independence and inclusion, HR&SS recognises the importance of accessible public transport. Lack of accessibility in public transport has significant impact on people with disabilities ability to participate in the community and in paid employment. The additional cost and inconvenience of alternatives, such as taxis, is prohibitive and places enormous strain on people's financial wellbeing.

As All Aboard have noted in their campaign statement, ALL people must have full and equal access to our public transport system. Universal access is a human right and immediate action is required.

As such, HR&SS is committed to supporting the All Aboard campaign and to assisting with the promotion of the ideas outlined in the All Aboard campaign statement.

Yours in solidarity,

Marija Groen
Chief Executive Officer
Housing Resource and Support Service Inc.
